

Online GHG Verification Training

Courses

0-001-IN: *FREE Introductory Course to ISO 14064*

In this course we'll introduce you to some of the many greenhouse gas standards produced by ISO. You will also learn about changes to ISO 14064 Part 3.

3-001-IN: *Introduction to ISO 14064 Part 3, 2nd Edition*

In this introductory course you'll learn about the changes to the second edition of ISO 14064 Part 3. Additionally, we'll review some key climate change facts and then introduce the profession of greenhouse gas verification and validation.

3-002-RA: *Verification of Greenhouse Gas Statements (Reasonable Assurance)*

This module covers verification at the reasonable level of assurance. We describe in detail the requirements for the planning, execution and completion phases of verification engagements.

3-003-LA: *Verification of Greenhouse Gas Statements (Limited Assurance)*

In this course we'll explain the requirements for performing verification engagements at the limited level of assurance.

3-004-VA: *Validation of Forecast Information in GHG Projects*

In this course you'll learn how project validation is planned, executed and completed in accordance with ISO 14064:2019 Part 3. You'll also learn why validators do not provide assurance with their opinions of forecast information.

3-005-ME: *Methodologies Used in Mixed Engagements*

In this course we'll explain how mixed engagements can be used with verification engagements conducted at the reasonable or limited levels of assurance, or with validation engagements. We'll also describe how agreed-upon procedures can be used with verification engagements.

3-006-AB: *Guidance for Accreditation Body Assessors*

In this course module we provide accreditation body assessors with additional background and information about selected requirements in ISO 14064 Part 3. Of course we also think this information will also be useful to verifiers and validators.

3-007-XT: *All Six Modules at One Discounted Price*

Special offer! Registering for 3-007-XT gives you access to all six Futurepast courses on ISO 14064:2019 Part 3.
